

Outsourcing for efficiency

The challenge

Our client experienced growth in real estate due to acquisitions. High turnover in their real estate department over a 12 month period left them exposed to many vulnerable situations that required immediate action.

The solution

We assumed control of the client's current lease administration software, operating it on their behalf including all day to day tasks. We assigned a team of experienced real estate professionals to assume real estate roles for this client.

The results

All urgent matters are being handled and new real estate processes are being put into place. Reporting has been enhanced as well. We are also in the process of preparing a migration of real estate data into a modern and superior lease management system.

Information contained herein has been obtained from sources we believe to be reliable. We have no reason to doubt its accuracy but regret we cannot guarantee it.
